SUMMARY

I am a climate researcher with expertise in the analysis of observational and climate model datasets, statistical techniques, and climate modeling. My research focuses on investigating complex interactions between the ocean and atmosphere to better understand climate variability in present and future climates. With a strong background in engineering and computational fluid dynamics, I am skilled in the mathematical analysis and interpretation of data. I am deeply committed to utilizing my expertise to address the urgent challenge of climate change and work towards finding sustainable solutions for our planet.

EDUCATION

2020 - present	Ph.D. in Atmospheric Science
	North Carolina State University, Raleigh, NC, USA
	Advisor: Dr. Sarah Larson
2019 - 2020	M.Sc. in Mechanical Engineering
	North Carolina A&T State University, Greensboro, NC, USA
	Advisor: Dr. Michael Atkinson
2011 - 2015	B.Sc. in Mechanical Engineering
	Chittagong University of Engineering & Technology, Chittagong, Bangladesh.

WORK EXPERIENCE

Research Experience

- Graduate Research Assistant, North Carolina State University
 Jan 2020 present Research: Interplay between wind-driven ocean dynamics and large-scale atmospheric circulation variability in the present and future climate.
 - Expertise: Climate modeling, Climate variability & Prediction, General atmospheric circulation
- Graduate Research Assistant, North Carolina A&T State University
 Jan 2019 Dec 2019
 Research: Numerical investigation of a dielectric barrier discharge plasma actuator for external aerodynamic flow control.

Expertise: Computational fluid dynamics, Numerical modeling, Aerodynamic flow control

Teaching Experience

- Graduate Teaching Assistant, North Carolina State University
 Jan 2020 Apr 2022
 Courses: Mathematical Methods for Atmospheric Science, Atmospheric Dynamics, Earth System Science, Introduction to Weather and Climate lab
- Graduate Teaching Assistant, North Carolina A&T State University
 Jan 2018 Dec 2018
 Courses: Applied Thermodynamics, Propulsion, Vector & Linear Algebra, Calculus 1-3

Leadership Experience

– Organizing Committee Member, 1^{st} MEAS Symposium Department of Marine, Earth & Atmospheric Science, North Carolina State University	2022
– Steering Committee Member, Community Climate Committee Department of Marine, Earth & Atmospheric Science, North Carolina State University	2020 - 2021
- International Student Representative, MEAS Graduate Student Association (GSA)	2020 - 2021

Department of Marine, Earth & Atmospheric Science, North Carolina State University

NOTABLE HONORS & AWARDS

- Outstanding Student Presentation Award, International Workshop for mid-latitude air-sea interaction,
 2021, Sapporo, Japan (online).
- Oral Presentation Prize, Early Career Technical Conference, 2019, UAB, Birmingham, AL, USA.
- University Merit Scholarship, Chittagong University of Engineering & Technology (CUET), Bangladesh,
 2011-2014.
- 2nd Runner-up in 'Project Show' competition in Dhaka University IT fest **2013**, Dhaka, Bangladesh.
- Board Scholarship in Dhaka division, Bangladesh, based on the result in Secondary School Certificate (SSC) Exam, 2008.

TECHNICAL SKILLS

Programming & Data Analysis : Python, Fortran, Matlab, Bash, R (Basic)

Post Processing : CDO, NCview, Tecplot, Paraview

Climate Modeling & Multi-physics Simulation : CESM, Ansys Fluent, OpenFOAM, Comsol

Application : LATEX , Microsoft Office
Operating System : MacOS, Linux, Windows
Computer Aided Design : SOLIDWORKS, AutoCAD

SCIENTIFIC PRESENTATIONS

- The Linkage Between Anomalous Wind-Driven Ocean Circulation and Hadley Circulation, Poster,
 MEAS 2nd Annual Symposium, 2023, North Carolina State University, Raleigh, NC, USA
- Future changes in the role of Ekman heat flux on SST variability, Oral, AGU Fall Meeting 2022, Chicago, IL, USA.
- Future changes in the role of Ekman heat flux on Pacific SST variability, **Oral**, NCAR Climate Variability and Change Working Group, CESM Annual workshop, 2022, Online.
- Future changes in the role of Ekman heat flux on Pacific SST variability, Oral, 3rd ESOM Symposium, George Mason University, 2022, Fairfax, VA, USA.
- Air-sea interaction plays a different role in North Pacific turbulent heat flux exchange in summer versus winter, Poster, AGU Fall Meeting 2021, New Orleans, LA (Online).
- The seasonally varying relationship between air-sea fluxes and large-scale SST in a coupled model hierarchy, **Oral**, *International Workshop for Midlatitude Air-Sea Interaction*, 2021, Sapporo, Japan (Online).
- Control of flow separation on a hump model using a dielectric barrier discharge plasma actuator, **Oral**, Early Career Technical Conference, 2019, UAB, Birmingham, AL, USA.
- Investigation of stratified Kelvin-Helmholtz instability by Integro-Differential scheme, **Poster**, 8th Annual COE Poster Presentation, 2019, North Carolina A&T State University, Greensboro, NC, USA

Workshops & Training Attended

- NCAR CESM Tutorial Workshop, August 2021, National Center for Atmospheric Research, Online.
- Python for Climate and Meteorology, March 2021, American Meteorological Society, Online.

Professional Membership

- American Geophysical Union (AGU), Member
- American Meteorological Society (AMS), Member
- Society for Industrial and Applied Mathematics (SIAM), Member
